EXPERIENCE

INTERNSHIP: [Golux Technologies](#) - Vanilla JavaScript, React, Apollo client - 3 months

SKILLS: [JavaScript](#) [React](#) [Flexbox](#) [CSS Grid](#) [Bem](#) [Sass](#) [PostCSS](#) [Newsletters](#) [Bootstrap](#)

Basic: [Typescript](#) [Apollo Client](#) [Next.js](#) [Handlebars](#) [PHP](#) [SQL](#)

WORKS

Please visit my portfolio: [Portfolio link](#)

GitHub profile: [GitHub link](#); Online CV: [CV link](#)

Main works:

1. [Bank site](#) - Vanilla JavaScript, Scss, BEM, semantic HTML, accessibility

- JavaScript modules invoked on load, imported in main.js. Scss - modules and base (reset styles) files.
- JS sliders. Scroll css animations, GSAP (Green sock) animations; Accessibility (tabindex), HTML validated.

2. [Foody](#) - React, Redux, Redux-thunk

- An internship project. JSON fetch with Redux-thunk, and set the recipes list. Filter items by categories, and by keydown.
- Browser router, smooth scroll, inputs validation, random recipe recommendations.

3. [Good choice](#) - React, Redux, TypeScript, Hooks, Scss, Mongoose, Redux-persist.

- A shopping advices platform. Advice items with categories marks and like buttons. Private routes for different roles (redirect component).
- Features: signup, login, advices crud, profile image upload, profile update and delete. I plan to add a shopping cart connected with Stripe.

EDUCATION

School of Code, Belgrade

Faculty of Medias and Communications, Singidunum University, Belgrade

Third Belgrade Gymnasium, Belgrade

COURSES

"School of Code" (React, Advanced frontend), [Java Script 30](#) , ["Flex Froggy"](#)
